Introduction

My name is John. I am from Pennsylvania. I work for company X where I work as an engineer. I have a small family, me, my wife and my two sons. I really like photographing of nature but never get enough time to go. My family is happy family. We do not have much money or wealth but what my family has in abundance is love for each other which cannot be replaced by anything else in this world. My family is like a strong pillar for me, on which I can rely blindly anytime I require support. My family is a lifeline to whom I can run to, whatever may be the situation I am facing. My family guides me to be a good person and help me in nurturing good values. We, humans, are animals

that live together spreading love and care for each other, and
this togetherness is called family.
